About Me

I am Sinta Nur Wulan, a Software Engineering graduate with skills in administration, data management, and analytical thinking. Throughout my education and experiences, I have developed expertise in handling projects that require attention to detail and strong coordination. With this background, I am ready to support company operations in an efficient and structured manner, and to contribute toward achieving the company's goals.

Education

2021 -2024 | SMKN 1 SUBANG | SOFTWARE ENGINEERING

Main Subjects: Database, Web Programming, Object-Oriented Programming

Final Project: Development of an Offline Desktop-Based Hotel Booking Application

Experience

Pt. Protonema

Scholarship & Internship Program | 2022 – 2023

- Presented and delivered materials on Linux and Database to fellow scholarship participants, ensuring clear and effective understanding of the topics.
- Responsible for inputting pet shop data from two cities into the company's website, significantly improving product information accessibility.
- Managed the input of attendance and absence records for scholarship participants, ensuring the data was accurate and up to date.
- Contributed as part of a team in designing and developing an application, preparing related reports, and presenting the results in a clear and structured manner.
